

Pittsburgh's Pennsylvania Motor Speedway Point System

Points are awarded by the rules noted in the PPMS Rules of Procedure for all regular divisions, using the following system:

- A. To earn points for a race night, a car must appear on the track under its own power in any event, which includes hot laps.
- B. Points will be awarded for feature finishes only, there will no longer be points for heat race finishes.
- C. Point totals per night will be based on the official car count, and awarded per the chart below.
- D. All cars that are in attendance and do not start the feature for whatever reason, will earn the DNS points at the bottom of the chart.
- E. At the end of the tenth night of racing and beyond, the one lowest point total will be dropped. You may drop a night that you missed.
- F. If the first race of the evening has pulled on to the track and for whatever reason there is a cancellation and the feature events are not run, all cars that are signed in and in attendance will earn 60 points for the race night, regardless of car count.
- G. A disqualification for a major reason will earn no points.
- H. Points for all non weekly divisions will be awarded to the driver.
