

Pittsburgh's Pennsylvania Motor Speedway Point System

Points are awarded by the rules noted in the PPMS Rules of Procedure for all regular divisions, using the following system:

- A. To earn points for a race night, a car must appear on the track under its own power in any event, which includes hot laps.
 - B. Points for the night will be awarded for feature finishes only, with points also awarded to non starters.
 - C. Point totals per night will be based on the official car count, and awarded per the chart below.
 - D. All cars that are in attendance and do not start the feature for whatever reason, will earn the DNS points at the bottom of the chart.
 - E. If the first race of the evening has pulled on to the track and for whatever reason there is a cancellation and the feature events are not run, all cars that are signed in and in attendance will earn feature non starter points based on car count.
 - F. A disqualification for a major reason will earn no points.
 - G. Weekly points are awarded to the car per track rules. Points for all non weekly divisions and series will be awarded to the driver.
- Effective 2023 season.

Official Car Count
